# Mostafa Ahmed Abdelfattah Morsi

Physics Teaching Assistant

## PERSONAL DETAILS

Address: Benha, Qalyubia, Egypt

Email: mustafa.morsi@bhit.bu.edu.eg

LinkedIn: Mostafa Ahmed Abdelfattah

Phone: (+20) 1027244872

(+20)1557926449

## SUMMARY

Physics Teaching Assistant with a strong background in electrical power engineering and solid-state physics fundamentals. Experienced in teaching undergraduate physics courses, conducting laboratory sessions, and supporting students in understanding complex physical and mathematical concepts. Graduated with Excellent with Honors, with strong analytical, simulation, and programming skills. Motivated to pursue advanced academic and research-oriented roles in physics and engineering.

## EDUCATION

**Bachelor of Electrical Power Engineering**

***Faculty of Engineering, Benha University*** **Jul 2018 – Jul 2023**

- **Overall Grade: Excellent with Honors**
- **Graduation Project: Smart Home System Using KNX Technology**
- **Project Grade: Excellent**
- **Strong coursework in:**
  - **Engineering Physics**
  - **Electrical Circuits**
  - **Semiconductor Devices**
  - **Power Systems**
  - **Control & Measurement**

## Teaching experience

**Physics Teaching Assistant**

*Faculty of Engineering, Benha University* Oct 2023 – Present

- Assist in teaching **undergraduate physics courses** ( electricity, electromagnetism).
- Conduct and supervise **physics laboratory experiments**.
- Explain theoretical concepts and problem-solving techniques to students.
- Support students during tutorials, assignments, and exam preparation.
- Assist academic staff in course preparation and grading.
- Participate in departmental academic and research-related activities.

## INTERNSHIPS

- **EMC – Egyptian Maintenance Company (Petroleum Sector)** | Sep 2022
    - Exposure to electrical systems maintenance and industrial safety procedures.
- **MAM for Engineering Industries & Electrical Supplies** | Oct 2022
    - Worked on electrical components, panels, and power-related equipment.
- **Benha Power Station** | Aug 2022
    - Practical training in power generation, transformers, and switchgear systems.
- **ArabTech for Electrical Industries**
    - Familiarity with industrial electrical manufacturing and quality control.

## TECHNICAL & COMPUTER SKILLS

- **Programming & Simulation:**
    - MATLAB (numerical analysis, simulation, plotting)
    - **Python** (NumPy, Pandas, Matplotlib – data analysis, numerical computation, plotting)
- **Software Tools:**
    - Microsoft Word, Excel, PowerPoint
- **Engineering Skills:**
    - Electrical measurements
    - Circuit analysis
    - Basic power system analysis
- **Academic Skills:**
    - Problem-solving
    - Technical reporting
    - Lab instruction

## RESEARCH INTERESTS

- Solid-state physics
- Semiconductor devices
- Electronic materials
- Device modeling and simulation
